EXPANSION AND COMMUNICATION MODULES

- 4 digital inputs / 4 digital outputs
- Analog inputs, 0...10V or 0...20mA
- Analog outputs, 0...10V or 0...20mA
- Relay or transistor outputs
- PT100 temperature sensor inputs
- Modbus-RTU protocol slave communication unit
- 24VDC, 24VAC or 100...240VAC power supply.

Page 21-6

ACCESSORIES

- Program backup memory
- Programming and supervision software
- Power supply unit
- HMI operator panel with graphic LCD.

Page 21-6

STARTER AND TRAINING KITS

- Complete kit to begin using micro PLCs, each equipped with LRD relay, programming-supervision software and USB connecting cable
- Training kits complete with micro PLC and inputs/outputs simulation board.

Page 21-7

HMI

- TFT graphic display with touchscreen, 64k colors
- Available in formats 4.3", 7" and 10.1"
- Programming software
- IP66, Type 2 and 4X.

MICRO PLC - EXCEPTIONAL PERFORMANCE!

SYSTEM CONTROL AND SUPERVISION

- Contact status viewing in simple and small screen display
- Possibility to add the micro PLC to systems integrated on data networks. By using Synergy supervision and energy management software, a mult-client structure can also be managed through Web

QUICK CONTROL BOARD INSTALLATION

- Fewer number of components
- Less wiring with minor number of connections.

REPETITIVENESS

- Less errors during panel building
- Considerable time saving.

FLEXIBILITY

- Quick correction of abnormal conditions at final testing
- Fast changes on control boards.

FUNCTION BLOCKS AND MEMORY

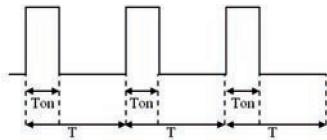

Timer (T) (delay on/off, recycle, pulsing, ...)	31
Real Time Clock (RTC) (daily, weekly, monthly and yearly mode)	31
Counter (C)	31
Analog comparator (G)	31
User's pages (H) - 16 characters - 4 lines	31
Auxiliary relay - Scratchpad (M + N memory types)	63 + 63
Arithmetic operation: addition/subtraction and multiplication/division	31 + 31
Data register (DR)	240
Saving can be in memory storage of:	
- Auxiliary relay	
- Counter value	
- Data register.	

FUNCTIONS

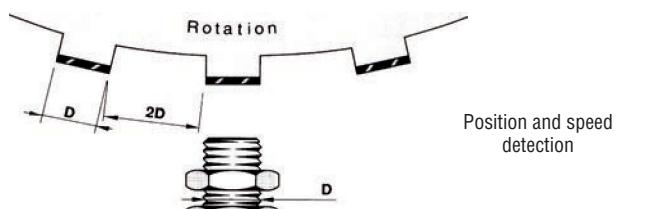

PWM OUTPUT

Pulse train generation with programmable pulse time and frequency

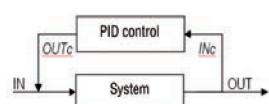

$$V_{out} = 24VDC \times \frac{T_{on}}{T}$$

HIGH SPEED INPUT

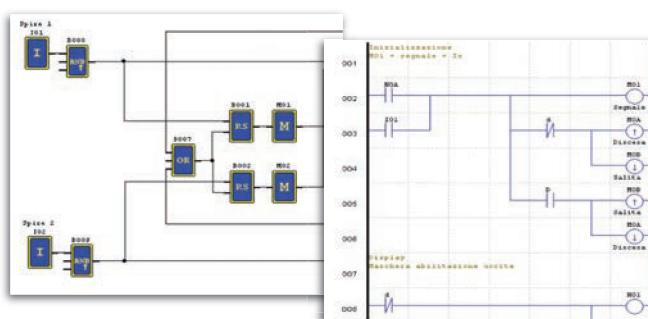

PID

- IN: Heating switch on and required temperature setting
 OUT: Current room temperature
 INC: Measured room temperature in an exact spot
 OUTc: Temperature adjusting and controlling.

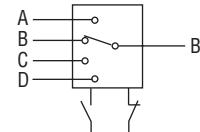

PROGRAM SIZE

Language	300 lines
LADDER (contact scheme)	300 lines
FBD (function blocks)	260 blocks

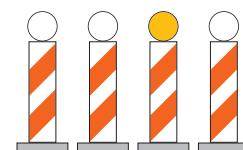

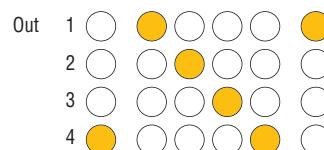

MULTIPLEXER

Selection of 1 of 4 values based on the combination of two digital signals

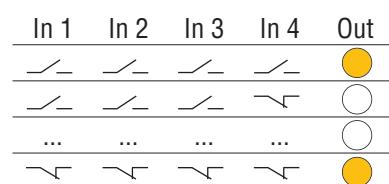

SHIFT FUNCTION - activation of pulsed outputs in sequence

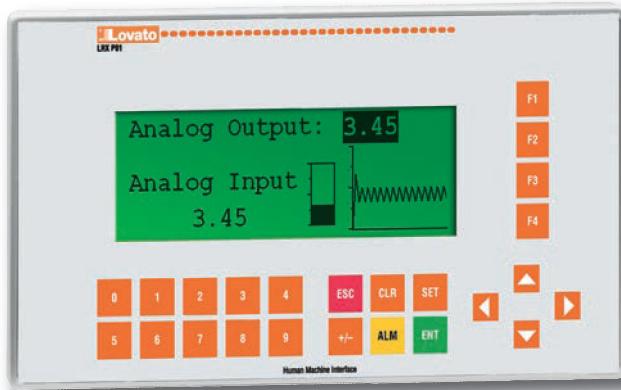

BOOLEAN LOGIC BLOCKS

Output activation based on a series of digital signals

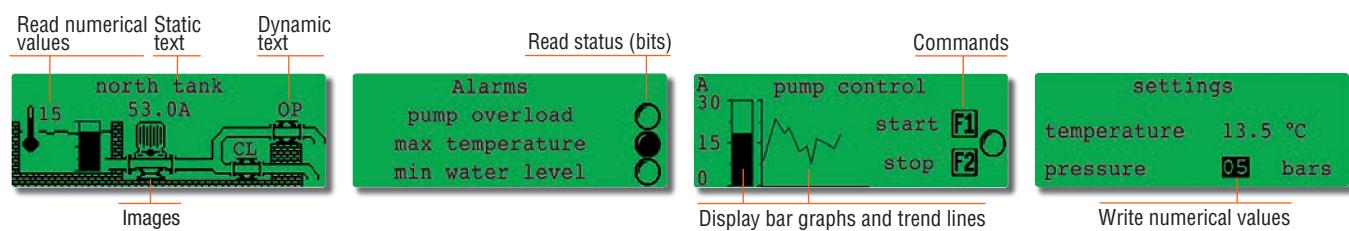

HMI OPERATOR PANEL LRX P01

HMI INTERFACE

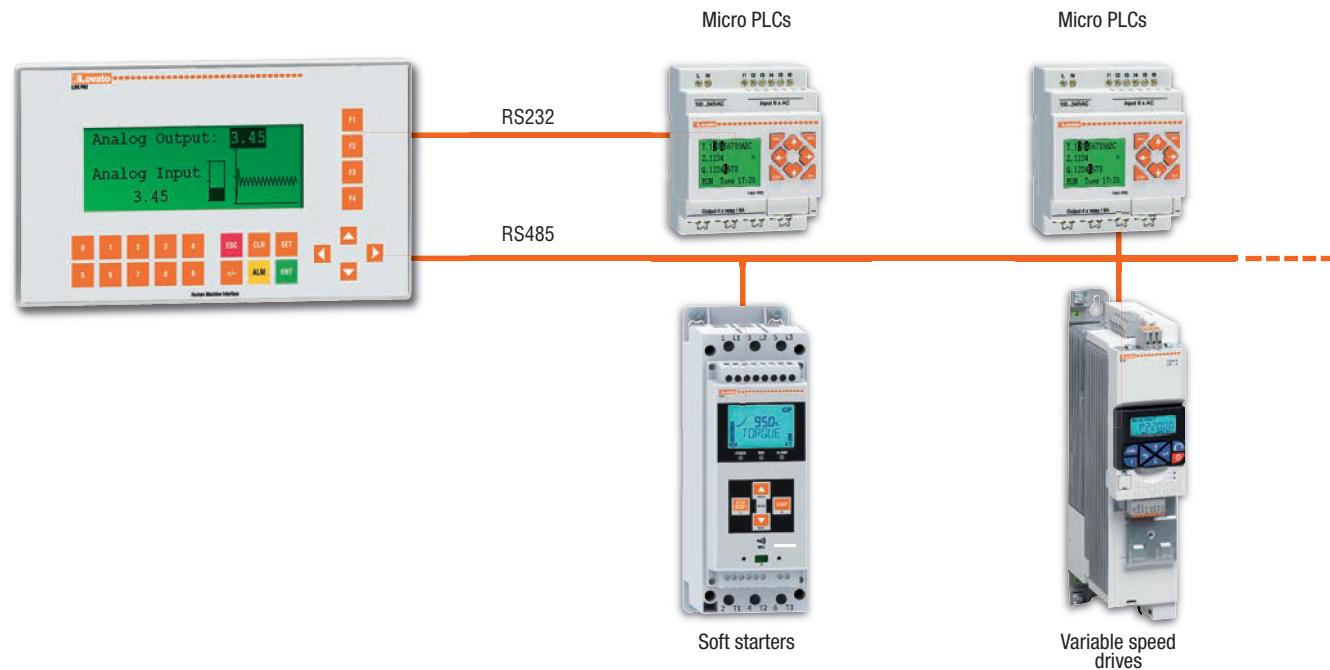

LRX P01 is a HMI operator panel, used with many types of PLCs or other intelligent controllers equipped with communication port. By using the HMI, the values of both PLC inner registers and relay status can be monitored and changed with the keys or LEDs. In this way, for machinery and equipment functioning results to be simple and direct. The LRX SW P01 editor software permits to make dedicated screens by taking advantage of the graphic display to view bitmaps, bar graphs and trend lines.

BACKLIGHT 192x64 PIXEL GRAPHIC LCD

COMMUNICATION MODES

LRX P01 supports Modbus-RTU protocol and RS232 or RS485 communication modes can be chosen.

HMI LRH SERIES

● HMI WITH COLOR TOUCHSCREEN DISPLAY

The HMI LRH series have a graphic TFT display with 64k colors, touchscreen, easy to program and extremely flexible. They can be interfaced with different type of devices, from PLC to any kind of intelligent controller provided with communication port, like multimeters, drives, process controllers.

The LRH SW programming software allows the configuration of the HMI in a simple and intuitive way, thanks to the graphical interface with which you can create customized screens to show images, trends, bar graphs, analog indicators, dynamic objects and other functionalities.

The HMI LRH series are the ideal solution for the supervision and control of small and large automations, features more and more required in the world of Industry 4.0.

● WIDESCREEN DISPLAY WITH HIGH VISIBILITY

- TFT display with resistive touchscreen
- High brightness thanks to the LED backlighting
- 64k colors
- Available in formats 4.3", 7" and 10.1".

● SIMPLICITY AND EFFICIENCY

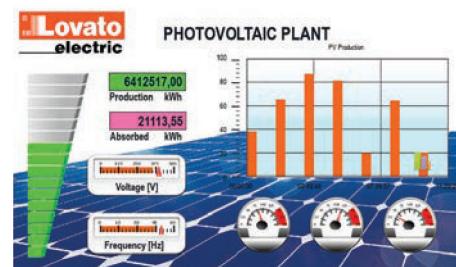

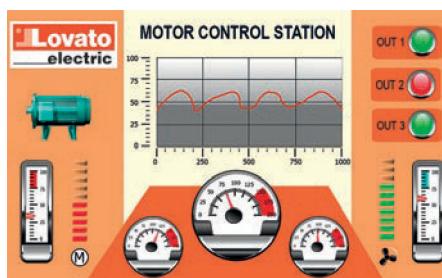

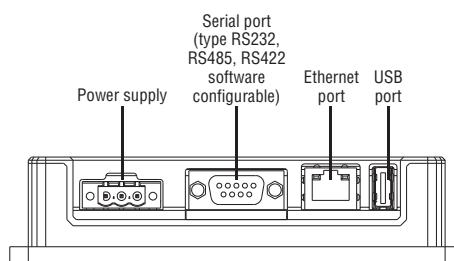

- Simple and elegant design with low energy consumption
- High robustness, thanks to the use of highly reliable industrial components
- Plastic enclosure, degree of protection IP66, Type 2 and 4X.

● CONNECTIVITY FOR EASY INTEGRATION

- 3 built-in communication ports: Ethernet, USB and serial (type RS232-RS485-RS422, configurable via software LRH SW)
- Support of communication protocols Modbus RTU Master/Slave, Modbus TPC Client/Server, OPC UA Client/Server and Simatic S7 Ethernet.

● POWERFUL AND INTUITIVE PROGRAMMATION

- High performance CPU
- Extensive gallery of widgets, objects and pre-configured scenarios for typical applications
- Data acquisition and display on numeric indicators, trends or graphical gauges
- Support of vector graphics, images, analog indicators, bar graphs
- Advanced functionalities: dynamic objects, alarms and events management, support of multilingual applications, recipes, tags editor, user and password management, script language
- Advanced properties of the objects: e-mail, events scheduler, etc
- Support of HTML5 and JavaScript
- Possibility to simulate the program by working off-line.

General characteristics

FUNCTIONS

- Addition-Subtraction on variables
- Multiplication-Division on variables
- Comparator on variables
- HMI display for parameter viewing and programming
- PWM output
- High speed input (1kHz)
- PID function
- Multiplexer
- Analog ramp
- Register transfer (numerical variables and status)
- Shift function
- Boolean logic blocks
- LRD20R D024 P1 with RS485 port onboard.

Operational characteristics

- 8A latching current relay outputs for AC and DC versions
- 0.3A 24VDC transistor outputs for DC version
- 0...10V analog inputs for DC version
- Version: modular for mounting on 35mm DIN rail (IEC/EN 60715) or M4x15mm screw fixing
- Type of terminal: Screw
- IEC degree of protection: IP20.

Certifications and compliance

Certifications obtained: UL Listed, for USA and Canada (cULus - File E300049), as Programmable Controllers; EAC. Compliant with standards: IEC/EN 61131-2, UL508, CSA C22.2 n°142.

Power supply unit and backup memory general characteristics

- The LRD 1V3 D024 power supply produces a direct-current voltage to power the LRD base and expansion modules in circumstances when 24VDC is not available in the application. The power supply can also be used to power eventual 24VDC auxiliary circuits.
- The LRD M00 backup memory allows to save the user's program and to simply and quickly transfer it to the base modules.

HMI panel LRD P01 general characteristics

- 24VDC power supply
 - RS232 communication port:
 - Direct connection to LRD using cable LRD C00
 - Connection to other devices using a standard D-SUB 9 serial cable
 - RS485 communication port
 - LRD SW P01 editor software for specific pages and easy use
 - IEC degree of protection: IP65.
- FUNCTIONS**
- Send commands
 - Read status
 - Provide static and dynamic texts
 - Write variables
 - Read variables:
 - Numerical value
 - Bar graph
 - Trend line.

Programming using software LRD SW

At any time and with extreme simplicity, LRD can be set up and reprogrammed to satisfy new requirements and improve the operation of a system.

Programming is simple and intuitive and can be done directly on the base module keypad or by personal computer, connected by LRD C00 (RS232) or LRD C03 (USB) interface and using the relative LRD SW software.

With a personal computer, two programming language locs can be used: FBD (Function Block Diagrams) and LADDER (contact scheme).

Both of the following can be accomplished:

- Simulate the program directly "off-line" with a personal computer to test if it runs correctly.
- Use the supervision mode to check the project "on-line".

There are 8 function keys on front, dedicated to on-board adjustment, control and supervision of digital input and output status, analog input values, time and date entry and the operation status of the micro PLC itself.

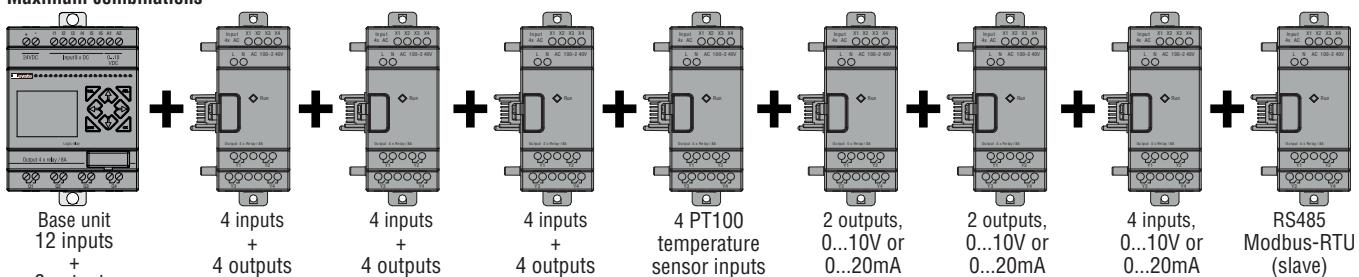

Certifications and compliance

Certifications obtained: UL Listed, for USA and Canada (cULus - File E300049), as Programmable Controllers for power supply and HMI units and base module of kits.

Compliant with standards: IEC/EN 61131-2, UL508, CSA C22.2 n°142.

General characteristics

- Widescreen display with resistive touchscreen
- Available in formats 4.3", 7" and 10.1"
- LED Backlight
- Ethernet, USB and serial port (type RS232-RS485-RS422, configurable via software LRH SW)
- Lightweight and low-power design
- Highly reliable industrial components
- Powerful and intuitive programming with software LRH SW (downloadable from the website www.LovatoElectric.com or purchasable on Cd-rom), with 30-days trial licence included
- Support of protocols Modbus-RTU Master/Slave, Modbus-TCP Client/Server, OPC UA Client/Server and Simatic S7 Ethernet
- Data display as numerical, text, bargraph, analog gauges and graphic image formats
- Data acquisition and trend presentation
- Recipe data handling
- Full support of multilingual applications
- Powerful script language
- Alarm handling
- User and group access control
- Monitoring and remote control
- Rich set of HMI features: dynamic objects, data acquisition, alarm handling, multilingual applications, recipes, tag editor and tag database, user and password, scripting ...
- Rich symbol library and project templates
- On-line and off-line simulation of the applications
- Advanced HMI objects: e-mail, events scheduler, ...
- Pre-configured scenarios for typical applications managed with Lovato Electric products (monitoring and control of a micro-plc, supervision of a pumping station, monitoring of a photovoltaic system, etc.) freely downloadable from the website www.LovatoElectric.com.

Operational characteristics

- Auxiliary power supply: 24VDC
- Operating temperature: 0...+50°C (vertical installation)
- Storage temperature: -20...+70°C
- Humidity: 5-85% RH, non condensing
- Protection degree: IP66, Type 2 and 4X (front); IP20 (rear).

Certifications and compliance
